Aeroquip's revolutionary one-piece fitting design offers motorsport enthusiasts uncompromised quality and assurance that they are using the highest performing components available. These compression-style fittings are easier to assemble and swivel, and they offer significantly better seal integrity than out-dated cutter-style fittings. They are available in swivel and non-swivel styles, as well as in red and blue anodized and nickel-plated finishes. The fittings are designed for use with AQP stainless steel racing hose and Aeroquip's StartLite hose.

LOU FEGERS RACING EQUIPMENT

AEROQUIP STARTLITE HOSE

Manufactured by Aeroquip to provide you with a superior performing lightweight racing hose. Utilizing the latest technology, our Nomex fire-retardant covered hose provides up to a 45% weight savings compared with traditional stainless steel racing hose assemblies. The patented AQP inner tube offers a 300° temperature rating and unsurpassed fluid compatibility. Use with either our lightweight crimp fittings, or our aluminum reusable fittings. Applications include fuel, lube, coolant, and air.
